Basket Clips
Basket clips are available in wrap-around and nail-down styles to fasten baskets with nails in lieu of basket stakes.

Dowel Bar Clips
Dowel bar clips are available for tying or clipping dowels to K-4 and K-5 baskets. They are fabricated for 3/4” — 1-5/8” diameter dowels.

Dowel Tubes - Plastic
Plastic dowel tubes are used for the end-of-day pour applications, eliminating the need for drilling into the slab.

Dowel Caps
Metal and plastic dowel caps are available to allow movement of dowels in expansion joints. Crimp type metal dowel caps are fabricated in 5/8” — 1-1/4” diameters and 5” length. Welded type metal dowel caps are fabricated in 3/8” — 2” diameters and 5” and 6” lengths. Flanges on the welded type caps must be notched back when installing caps on dowels in baskets. Plastic dowel caps are fabricated in 1/2”—1-7/8” diameters and 4” length.
