Current Tools

FOR THE PROFESSIONAL ELECTRICIAN

Advantages of Current Tools

- Full engineering staff
- Continuous product development through customer input
- State of the art manufacturing equipment and processes
- Made in the USA
- 2 year warranty
- Quick shipment of product
- No drop ship fee to job site
- In-house product training
- Contractor focus groups

About Us

Since its founding in 1999 the goal of Current Tools, Inc. has been to provide the professional electrician with quality tools at reasonable prices. We continue to expand our product line, with a mission devoted to meeting the needs of the professional electrician.

Our Standards

Current Tools has invested in state-of-the-art production equipment to ensure the tools we manufacture meet the demanding standards our customers have come to expect. We ship worldwide from our 200,000 square foot facility located in Greenville, SC, and from numerous stocking warehouses located throughout the United States.

"Now you have a choice!"™

Current Tools

FOR THE PROFESSIONAL ELECTRICIAN

Our Facility

- 200,000 sq. ft. of manufacturing space
- BLM Tube Laser
- State of the art Powder Coating System
- Robotic Welding Cells
- Mitsubishi Laser with Tower
- On hand inventory allowing us to quickly process most orders within 24 hours.
- Ability to ship directly to customers desired locations

Hand Pump and Hydraulic Hose for Knockout Sets

- Unique stainless steel and aluminum construction for light weight and rugged use
- Operates in any position
- 6,500 PSI (max) pressure
- For use ONLY with Hydraulic Knockout Sets & Cable Cutters
- Compare with Greenlee® Model #767*
- Made in the USA

SPECIFICATIONS

Oil Capacity — 16 cu. in.

Oil Volume — .069 cu. in. per stroke

Knockout Ram

- Will work with Greenlee® punches and dies*
- Proven heavy duty design
- For use only with 6,500 PSI maximum hand pumps
- Compare with Greenlee® Model #746*
- Made in the USA

Catalog Number	Description	Weight	
1521	6,500 PSI (max) hydraulic hand pump Dimensions - 2 7/8" width x 3 7/8" height x 12 3/4" length	4.7 lbs.	UPC 811993021404
1522	Hydraulic Knockout Ram Dimensions - 5 3/4" length x 2 7/8" diameter	6 lbs.	UPC 811993021411
1523	1/4" x 3' Hydraulic Hose — 1/4" NPT male fittings on both ends, one end swivels	1 lb.	UPC 811993021428

HOLEMAKING

Stud Punch

- Punches steel studs up to 20 gauge
- Self-clearing mechanism to help avoid punch hang-up
- Handle designed to allow for tight clearances
- Self-centering on standard width studs
- Lightweight aluminum body
- Ergonomic handle design
- Handle designed for greater leverage
- Compare to Greenlee® Model #709 & 710*
- Made in the USA

Catalog Number	Description	Weight	
140	Stud Punch – 7/8" hole Capacity – Minimum stud width 1 5/8" – Up to 20 gauge steel studs	6.5 lbs.	UPC 811993021756

CABLE PULLING

High Speed Cable Puller 3,000 lb. capacity with Mobile Cart

- Mobile cart for easy mobility around jobsite
- Folds for compact transport and storage
- 8' reach when fully extended
- Quick release conduit couplings
- Integral heavy duty 2-speed motor
- Permanently lubricated vent free gearbox
- Integral foot switch
- Lightweight – Less than 75 lbs. without mobile cart
- 3,000 lb. pulling capacity
- Complete system – no extra parts to purchase
- Stronger, more durable gear box
- Integrated wheels
- Higher pulling capacity than competition
- Compare to Greenlee® Model #G3 Tugger® and Southwire® M3KM Cable Puller**

See Page 61 for Pulling Rope

CABLE PULLING

Cable Feeder

- Hinged upper drive to allow for easy side loading
- High grip tires can accommodate no lube or regular cable
- Dual drive motors for maximum grip on cables
- Cable separator guides cables to ensure positive grip on tires
- Heavy duty transport caster with quick release mechanism
- Variable speed control
- May be operated with remote pendant or optional foot switch
- Self-lubricating drive chains reduce maintenance
- Flat-free transport wheels
- Compare to Greenlee® Model 6810*
- Made in the USA

Can be used with
SIMpull®** and
other cables that
do not require
lubrication

Model 99 Cable Feeder Features and Specifications

FEATURES

- Hinged upper drive with gas spring assist for ease of cable loading from side
- Each wheel independently driven for maximum pulling power
- Variable speed control
- Low voltage hand control pendant with 8' cable
- Ratcheting tension adjustment provides tension on cable from 1/4" to 3 1/2" diameter
- Removable cable separator
- Self-lubricating drive chains reduce maintenance

SPECIFICATIONS

- Weight: 345 lbs.
- Dimensions: 26"W X 42"L X 43"H
- Power requirements: 115 VAC, 15 amps, 60 Hz
- Feeding speed: 0 ft./min to 36 ft./min.
- Cable capacity:
Cable size — .25" to 3.5" dia. max.
Total width of all cables — 6" max.
- Maximum pulling force:
Single cable – Approximately 250 lbs.
All cables – Approximately 1,000 lbs.
- Maximum reel capacity – 25,000 lbs.
- Tire pressure – 50 PSI

CABLE PULLING

Double Braided Composite Rope

- Composite rope gives strength with low stretch
- Pulling eye on each end
- Double braided jacket and inner core
- Made in the USA

Cable Pulling Extras

Polyester Measuring / Pulling Tape

- Large printed footage markings
- Use in many applications with various tensile strengths
- 3000' spools

Catalog Number	Description	Weight	
ST1250	Poly Measuring / Pull Tape - 1,250 lb. Breaking Strength - 1/2" wide	26 lbs.	UPC 811993022326
ST1800	Poly Measuring / Pull Tape - 1,800 lb. Breaking Strength - 5/8" wide	33 lbs.	UPC 811993022333
ST2500	Poly Measuring / Pull Tape - 2,500 lb. Breaking Strength - 3/4" wide	45 lbs.	UPC 811993022340

Conduit Measuring Tape

- Easy to read measurements from 0' to 3000'
- Use to fish and measure conduit in one step
- Dispenser available to pay out and cut tape

Catalog Number	Description	Weight	
CMT30	Conduit Measuring Tape - 3/16" x 3000'	4 lbs.	UPC 811993022357
CMT30D	Dispenser for Conduit Measuring Tape	2 lbs.	UPC 811993022364

Spiral Wrap Poly Line (Rat Line)

- Dispenses directly from the container
- Virtually tangle free when dispensing
- Pre-punched hole in lid ready for use
- Reusable plastic dispenser
- For pulling rope through conduit

Catalog Number	Description	Weight	
SPL65	Spiral Wrap Poly Line - 6500'	11 lbs.	UPC 811993022371

Conduit Pistons (Rats)

- Flexible foam body provides air tight seal
- For use with blower or vacuum fishing systems
- Steel center rod for strength with loops on both sides
- Sizes available for up to 6" conduit

Catalog Number	Description	Weight	
R05	Conduit Piston for 1/2" conduit	.04 lbs.	UPC 811993022388

PULLING ACCESSORIES

Line Swivels — 00505 Series

- Current Tools line swivels are constructed with a thrust bearing for tensile load and a radial bearing for bending load. They combine a high safe working load with a compact design.
- All sizes incorporate an oil seal and are manufactured from high strength stainless steel.
- Sizes 00505-020 and larger are supplied with a grease point for lubrication.
- Sizes 00505-025 and larger are supplied with hexagon Clevis Pins.

CAUTION

Line swivels are not designed to run around sheaves.

Wire Grip Swivels — 00501 Series

These swivels may be used in conjunction with any non-rotary head wire mesh grip. They will allow the wire being installed to "unwind" as it is being pulled in, but like the Rotary Heads, these swivels will not rotate under load.

Breakaway Swivel — 00550 Series

- The purpose of this product is to protect the cable being installed from overload as well as providing the function of a regular Line Swivel. Typically, they are used during the installation of Fiber Optic cable where the swivel can be pre-set to breakaway at a pre-determined load, thus protecting the fibers or the conduit.
- Breakaway pin kits are ordered separately from breakaway swivels.
- Breakaway pin load ratings are within +/-10%.
- The Swivel is constructed of stainless steel and the breakaway pins are color coded for easy identification.

Note: Breakaway pin kits not included with breakaway swivels and must be ordered from chart below.

PULLING ACCESSORIES

Can-Link Connector — 00520 Series

- The 00520 Connector is used to connect two items with lugs or wire loop fittings. A common use is to connect a wire mesh grip to the pulling wire. The connectors are manufactured from high strength Stainless Steel with hardened Clevis Pins. The two smaller sizes have slotted Clevis Pins while the larger ones have hexagon Clevis Pins.

2502	Clevis Max. Rated Capacity – 6,500 lbs.	1.2 lbs.	UPC 811993023422

The following are MAXIMUM pulling capacities:

- 1,750 lbs. maximum when using 1 grip of a double leg pulling harness
- 3,250 lbs. maximum per double leg pulling harness when using both grips of a double leg pulling harness
- 6,500 lbs. maximum when using both (Model 2500-1 and Model 2500-2) double leg pulling harnesses
- Clevis maximum capacity is 6,500 lbs.

PULLING ACCESSORIES

Pulling Grips

Current Tools cable grips are hand-woven by experienced trades people and this guarantees a consistent level of high quality. **Current Tools** grips are reverse woven, creating a loop at the end of the grip instead of being soldered or crimped together.

The looped pulling head is actually a separate wire rope eye which is placed inside the swage sleeve along with the wire mesh strands. The swage sleeve is then crimped forming an extremely effective anchor point for both the looped head and the wire mesh. Testing proves this is never the weakest link of the product. The flexible eye allows cable to be pulled more easily through smaller conduit.

The **Current Tools** cable grips enclose the cable firmly over the entire length of the mesh. They are made of high tensile steel strands. Depending on the type of grip, the strand comprises 7, 12 or 19 wires. By selecting the most suitable strand, the tension distribution characteristics can be adjusted to suit the requirements.

All **Current Tools** grips meet the highest standards in terms of material and workmanship and we are pleased to offer a wide range of grips with different designs and eye arrangements for onsite, underground or overhead installations.

In addition to the grips listed in this catalog, **Current Tools** can also supply special products for particular fields of application. Information on these will be supplied upon request.

Some of the grips offered in this catalog have Rotating Heads which allow the grip to rotate while not under load.

Current Tools also offers the 00501 Series swivel, designed specifically for use with flexible eye grips, it is easily interchangeable but it will also not rotate under load.

All capacities indicated are Approximate Breaking Strength. Each user must decide what safety factor they require for each specific operation before selecting which grip to use. Due to metal fatigue and possible in-use damage, quoted values only apply to new grips.

Please refer to the following pages for information on **Current Tools** pulling grips. Line Swivels, Breakaway Swivels and Connectors suitable for use with the grips may also be found in this catalog.

PULLING ACCESSORIES

Pulling Grips — 00682 Series

TRIPLE WEAVE – ROTARY HEAD – SHOULDERS

These grips offer a Stainless Steel Rotary Head with Shoulders and Triple Weave galvanized wire construction. The shoulders help to protect the leading edge of the cable and this type should be used for heavy duty applications.

Note: The Rotating Head does not replace the use of a Line Swivel, Series 00505. There are no bearings to allow rotation under load and severe damage may occur to the cable being installed if this product is used without the correct swivel.

Pulling Grips — 00690 Series

DOUBLE WEAVE – ROTARY HEAD – SHOULDERS

These grips offer a Rotating Eye with Shoulders and Double Weave galvanized wire construction. The shoulders help to protect the leading edge of the cable and this type should be used for heavy duty applications.

Note: The Rotating Head does not replace the use of a Line Swivel. There are no bearings to allow rotation under load and severe damage may occur to the cable being installed if this product is used without the correct swivel.

Always read Breaking Strength, safety and technical data information.

Lube Spreader — 00510 Series

This product is designed to spread the lubricant around the walls and along the length of the conduit, while also acting as a connector.

The body is constructed out of Stainless Steel and the polyurethane disc has angular grooves which allow better distribution of lubricant.

Table A: Spreader Disc

Spreader Disc Catalog Number	Conduit Size	Disc Diameter	Connector Body	Weight

*Safety Factor of 3:1

PULLING ACCESSORIES

Conduit Checker — 08500 Series

Following initial installation of the conduit it is often found that debris or partial collapse of the conduit will impede installation of the cable.

These products are designed to ensure the conduit is clear before installing the cable.

The discs are manufactured from high density polyurethane giving them the toughness to clear the conduit without scraping or scratching the interior walls. The discs are spaced with gaps to allow passage through tight bends. The wire rope running through the mandrel is high quality, galvanized wire.

Catalog Number	Conduit Size	Disc Diameter	*Safe Working Load	Weight
