THE WORLD LEADER IN CORDLESS INNOVATION

SYSTEM

THE BEST FOUNDATION

REDLITHIUM™

They last longer, think faster and work harder than all other professional LITHIUM-ION batteries. Built to withstand even the harshest environments, REDLITHIUM™ batteries deliver more work over the life of the battery, no matter what the job.

MILWAUKEE® HIGH PERFORMANCE MOTORS

Highly advanced motor technology boosts efficiency, generating more power from a compact power source. That means the ultimate performance, durability and run-time comes in a smaller, lighter package.

REDLINK[™] INTELLIGENCE

An advanced combination of hardware and software, REDLINK™ Intelligence enables full-circle communication between our batteries and tools, allowing for unmatched levels of performance, protection and productivity.

TRADE-FOCUSED SOLUTIONS

USER-DRIVEN INNOVATIONS

Our mission in cordless design is to introduce new solutions that make tradesmen more productive on the jobsite. Working side by side with users during the design and testing process gives us the ability to deliver game-changing solutions. Whether it's bringing cordless power to traditionally corded products and manual activities, or advances to fundamental tools, our drive to improve workplace productivity continues to help us push the envelope in innovation and design.

The MILWAUKEE® Knockout System makes every step in the hole making process both faster and easier. The EXACT™ punches and dies are set up separately from the tool for extreme ease of use, utilizing a quick connect alignment system that allows the user to snap the tool onto the punches and dies without fighting against its weight, and pull the trigger to punch the hole with ease.

The M18 FUEL™ 10" Dual Bevel Sliding Compound Miter Saw is designed to meet the demanding needs of professional carpenters and remodelers. FASTER STRONGEST ON 1/4" STEEL

The M18 FUEL™ Magnetic Drill delivers performance and run-time expected by corded magnetic drill users. This tool utilizes permanent magnets to ensure the magnetic base does not deactivate even if the battery is drained. The M18 FUEL™ Magnetic Drill also delivers the strongest magnetic hold on 1/4" steel and a magnetic base that operates without electricity, providing a safer drilling environment on 1/4" steel.

The M18™ ROCKET™ LED Tower Light/Charger is designed to deliver a lighting solution that ADAPTS, PERFORMS and SURVIVES professional use unlike any other portable work light. The light head can be extended from 4' - 7'to light overhead work or minimize shadows when casting light downward. The multidirectional light head gives users the ability to orient the three independently pivoting light heads to cast light in several directions. With an integrated AC plug, a user can plug in the light with a standard extension cord and charge any M18™ REDLITHIUM™ pack.

HIGH PERFORMANCE MOTORS

The MILWAUKEE® POWERSTATE™ Brushless Motor converts energy into power and torque more efficiently, resulting in superior application performance. The POWERSTATE™ Brushless Motor has nearly 4X the amount of power-generating components than the competitor's brushless motor. It also features higher-grade, rare-earth magnets and greater copper content.
