WHY CHOOSE RAZOR-BACK®?

THE RECOGNIZED LEADER IN PROFESSIONAL JOB SITE TOOLS

Since 1936, Razor-Back Professional Tools have been in the hands that tackle the toughest jobs known to man.

MORE POWER

Features like the PowerStep® put more power in your hands and improve footing to move through the hardest, rockiest soil.

STRONG AS STEEL

Industrial-gauge, tempered steel delivers solid and dependable performance in the toughest conditions.

BUILT TO LAST

Razor-Back tools have a lifetime limited warranty. Pros count on Razor-Back to perform.

MADE TOUGH

One-piece forged steel, extra long handles, and steel ferrules make Razor-Back the preferred choice for professionals who know the difference.

FEATURES DEMANDED BY THE PROS —

POWER EDGE®

Our sharpened, beveled blade requires less effort to dig and penetrates material easier than other blades.

SUPER SOCKET®

The SuperSocket is a full five inches longer than other industrial-grade sockets for extra reinforcement where you need it most.

STEEL BACKBONE

The Razor-Back spine added to the socket that runs down to the blade ensures maximum strength.

The PowerStep provides an oversized cleated step for more secure footing and raw power.

POWERSTEP®

The closed back feature on shovels prevents material build up and strengthens the blade.

CLOSED BACK

14 GAUGE STEEL

Razor-Back tools are made with thick heavy-gauge steel for supreme durability. Our shovel heads are forged from tough steel.

Our steel grip is built for heavy jobs and is riveted securely to the handle.

ARMOR D-GRIP

DUAL RIVETS

Two rivets lock the handle in place and distribute much of the load from handle to steel socket.

Durable cushion grips and mid-handle grips absorb harsh vibrations and help reduce fatigue.

HEAVY DUTY GRIPS

For bow rakes, added rivets provide a more secure head to handle connection.

Our steel reinforced fiberglass handles add extra strength to the socket area on round point, square point, and clean-out shovels.
